# PROJECT COMPASS - TEAMS CHANNEL EXPORT

| | |
|---|---|
| **Fri 28.11.2025 20:14 - James Fox** | Cutover started, all green so far. |
| **Fri 28.11.2025 23:05 - Sandra Zbinden** | Data migration step complete on our end, over to you for the GL load. |
| **Sat 29.11.2025 06:30 - James Fox** | GL load running overnight, on track for Monday. |
| **Sat 29.11.2025 22:10 - Urs Broennimann** | Invoicing team doing a dry run tomorrow morning, please confirm GL will be ready. |
| **Sat 29.11.2025 23:40 - Sandra Zbinden** | GL is posting everything twice - trial balance is wrong. Halting invoicing now, can someone look at this urgently. |
| **Sat 29.11.2025 23:55 - James Fox** | Found it - missing idempotency key on the batch import job, the migrated journal batch got replayed twice. Pushing a fix now. |
| **Sun 30.11.2025 00:40 - James Fox** | Escalating to our on-call team as well, James here, will keep you posted through the night. |
| **Sun 30.11.2025 09:15 - Sandra Zbinden** | Any update? We can't run payroll like this. |
| **Sun 30.11.2025 14:02 - James Fox** | Root cause confirmed, patch written, testing it now in our sandbox. |
| **Sun 30.11.2025 19:30 - James Fox** | Patch tested and ready to deploy, proposing we apply it tonight and re-run the GL reconciliation. |
| **Sun 30.11.2025 21:48 - Urs Broennimann** | Applied. Reconciliation looks clean so far, will keep monitoring. Thanks James. |
